"The Complete Home is the Planted Home"

McCLUNG

Nursery and Fruit Farms

6 MILES SOUTH OF CORSICANA ON PAVED HIGHWAY 75

MAIL ADDRESS P. O. BOX 813 » CORSICANA, TEXAS
OR ANGUS, TEXAS

TO OUR FRIENDS AND CUSTOMERS:

Inasmuch as we are at war and our leaders in Washington are proclaiming a shortage of rubber and gas, you will undoubtedly find yourself spending more time at home and in your yards. Let us suggest that you make a hobby of beautifying your place. It will be time well spent, and will help to keep you both physically and mentally fit to bear your share of the war-time effort.

Our stock this year is larger and of a bigger variety and better quality than any we have ever had.

Our business is built on a desire that your dealings with us shall be satisfactory from your own standpoint. It is our aim at all times to sell the very best stock possible, but since we have no control over weather conditions, disease and insect infestations, or carelessness on the part of the customer in the selection of soil and location, as well as the planting itself, we do not guarantee plants to live. Our only guarantee is that the plants are true to name and in good condition when sold. Any plant dying within six months after planting will be replaced at half price.

We are glad at all times to talk with you about your landscaping or planting problems, and when plants are bought from us, we make no charge for service of this kind.

Sincerely yours,

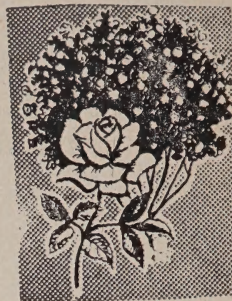

C. C. McClung

P. S. Invest in the future of our country -- Buy War Bonds and plant several good fruit, shade, and nut trees this fall or spring.

ROSES

EVERY HOME, regardless of size, should have some roses, not only for their beauty in the garden, but for cut flowers for the house. Roses will grow in almost any soil. They demand good drainage, both surface and underground. Since they are found growing well in clayey, black land, and sandy soil, it can hardly be said that they prefer any particular kind of soil, except that it must be loose and have good drainage.

HINTS ON ROSE CULTURE

PLANTING—Rose beds should be prepared in advance, all grass and weeds removed, dirt well spaded. As a general rule we do not recommend that fertilizer be added until after planting. Fertilizer should not be put too close to plants. Let the feeder roots feed to the fertilizer.

CARE OF ROSES—Roses should not be pruned before February 20th in our section. We do not recommend too severe pruning. All dead wood should be removed and limbs cut back to within one foot of the ground. To prevent mildew and black spot on the leaves, we recommend dusting your roses with copper sulphur within twenty-four hours after each rain during growing season. Keep your ground well mulched, but avoid spading too deep around the roots. In watering roses, do not spray them, but let the water run on the ground.

OUR ROSES are two year old, field grown, budded on Rosa Multiflora Japonica understock. So when you buy roses from McClung, you can rest assured that you are buying the very best that are to be had.

BUY ROSES BY GRADE—The words "two year old field grown" have no descriptive meaning as to the grade plant that you are to get, but simply mean that plants so described have been in the field two years and might have one cane or a half a dozen, a good root system or no roots at all. Do not be deceived by these advertising tactics. Our roses are graded—1, 1½, and 2—See prices on the next page.

WE ESPECIALLY INVITE inquiries from Garden Clubs, Home Demonstration Clubs, and Civic Organizations for special prices on co-operative buying.

ROSES BY COLOR

RED ★★★

RED RADIANCE. Deep rose red in color, very fragrant, well formed globular flowers, very hardy and a profuse bloomer.

AMI QUINARD. Black lusted red in color, slender pointed buds opening to velvety, semi-double flowers.

ETOILE DE HOLLANDE. Brilliant red, magnificent size. One of the best.

MARGARET McGREDY. Oriental red passing to carmine rose as the bloom ages.

PINK ★★★

EDITOR McFARLAND. True pink—very hardy, and blooms exceptionally well.

ANTOINE RE. Buds large, blooms double and full. White suffused with pink.

EDITH NELLIE PERKINS. Long pointed buds of cream and orange; when open inside of petals show salmon-pink with gold base.

BRIARCLIFFE. Deep pink. Long pointed buds.

PINK RADIANCE. Brilliant rose pink with lighter tints on reverse of petal.

DAINTY BESS. Delicate pink with brownish-red overcast, contrasting center of wine-red stamen. Single petal.

YELLOW ★★★

GOLDEN RAPTURE. One of the finest yellows. Long, pointed buds. Is of rich gold without shading.

LUXEMBURG. Color in bud coral-red shaded chrome yellow, opens to large flower of shrimp pink shaded to coppery orange.

SUNBURST. Golden yellow, lighter at edges of petals; long, pointed buds.

MRS. PIERRE S. DuPONT. Rich golden yellow, long pointed bud, ornamental foliage, extremely disease resistant.

MULTI-COLOR ★★★

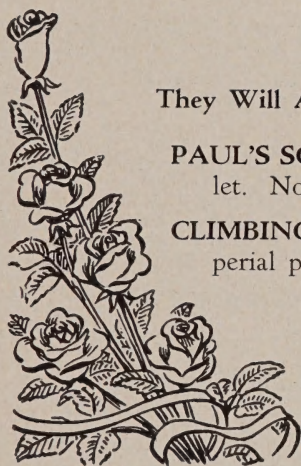

TALISMAN. Brilliant orange-red buds open to large golden-yellow flowers stained with copper-red and orange.

HOOVER. Maroon, orange, and gold. Long, pointed buds.

WHITE ★★★

CALEDONIA. Long white bud. Vigorous plant. The best white rose.

KAISERIN AUGUST VIKTORIA. — Creamy white, large, pointed buds.

Climbing Roses

They Will Add BEAUTY to Entrances, Fences, Arbors, Trellises, Etc.

PAUL'S SCARLET. Vivid scarlet. Not monthly.

CLIMBING COLUMBIA. Imperial pink.

PINK PEARL. Pink.

MARIE HENRIETTA. Pink.

CLIMBING TALISMAN Exactly like the bush rose.

CLIMBING HOOVER. Same glorious combination of colors as in the bush rose, only a graceful climber.

WHITE AMERICAN BEAUTY. White climber.

CLIMBING HADLEY. Red.

POLYANTHAS

EVER-BLOOMING BABY ROSES — USEFUL FOR BORDERS OR AS HEDGE

IDEAL

Rich, lustrous garnet flowers. A strong bloomer.

ELLEN POULSEN

Soft rose-pink. Very dainty.

GOLDEN SALMON

Bright orange flowers in huge clusters.

(Special Prices on Larger Quantities on Request)

Choose from These Varieties

RED

- ⌘ Flaming Sword, Pride of Warrakah, Southern Cross.

PINK

- ⌘ Early Dawn, Picardy, Betty Co-Ed, Debonair, Wasaga, Break O' Day, Margaret Fulton, Tycko Zang, Paradise, Giant Nymph.

WHITE

- ⌘ Maid of Orleans, White Butterfly.

APRICOT

- ⌘ Apricot Glow, A. V. Bounce.

YELLOW

- ⌘ Golden Dream, Golden Eagle.

CREAM

- ⌘ Shirley Temple, Duna.

BRONZE

- ⌘ Bagdad.

RAINBOW ASSORTMENT

- ⌘ 40 varieties, all colors, including the best varieties known.

Choice Iris

IN this section of the country IRIS do exceptionally well, and these newer and better varieties are much in vogue. They are fine for Border Planting, giving you a mass of colors through the months of May and June. The light green leaves, tapering to a point, are useful in floral arrangements. The slender flower stalks bear delicate, gorgeous flowers in a wide assortment of colors, some solid, some two-toned. These are sure to please you.

LOUIS BEL. One of the darkest of the purples, blooming early.

LOHENGRIN. Cattleya rose, a different color for your Iris collection.

GOLDEN GLOW. A beautiful yellow, one of the loveliest shades in Iris.

PRIMROSE. Deep, clear yellow. Very effective next to blues or purples.

PIONEER. Fine red purple self. The red tones are much desired.

PRINCESS BEATRICE. Lavender.

QUAKER LADY. Smoky lavender shaded yellow, some rose.

TAJ MAHAL. A very fine pure white, flowers of a fine shape, heavy waxy substance. Has a rugged constitution, increases rapidly.

SKY BLUE. One of the most popular. The color is as the name implies.

SWEET LAVENDER. Very fragrant.

IRIS RHIZOMES: 15¢ Each - \$1.25 Dozen

RED PINK BRONZE

Cushion Chrysanthemums

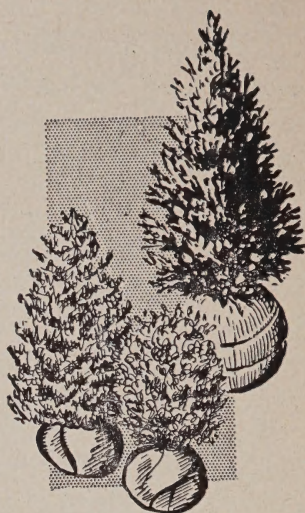

THESE VARIETIES grow in the form of a sugar loaf, and as the name implies, look like a huge and colorful cushion on the ground. Throughout the blooming season, each "cushion" is literally covered with myriads of pink, red or bronze blossoms, an amazingly beautiful sight. So numerous are the flowers that you won't miss the many you cut for bouquets. Clumps may be divided in the spring, making several plants. Ours are the genuine compact, upright cushion type, something of a novelty in the Southwest. Be among the first to have these exciting and gloriously beautiful 'Mums. **Get yours NOW!**

Large Clumps **50¢ Each**

EVERGREENS

~. CONIFEROUS. ~

★ AMONG the Coniferous or Cone-Bearing Evergreens are to be found types and species in sufficient variety to fill any and all needs of beautification work. The great variety as to color, shape, habit of growth, and size, together with the fact that their beauty is year-round, make this group especially desirable in all kinds of landscape beautification. All Coniferous Evergreens are shipped with a ball of dirt around the roots, and burlapped (B&B).

JUNIPERUS (JUNIPERS)

CHINENSIS PFITZERIANA—(Pfitzer's Juniper). One of the best known and most widely used evergreens. Low growing, wide-spread horizontal branches, irregular in outline. Bluish green foliage. 15-18 in.—60c; 18-24 in.—\$1.00; 2-3 ft.—\$1.50; 3-4 ft.—\$2.00; 4-5 ft.—\$2.50.

GOLDEN PFITZER. Like Pfitzer Juniper, except golden color. 15-18 in.—60c; 18-24 in.—\$1.00.

JUNIPER EXCELSA STRICTA—(Spiney Greek Juniper). 6 ft. Dwarf, compact, decidedly conical. Grayish-green foliage. Adapted for formal plantings or any place where a dwarf plant is required. 15-18 in.—75c; 18-24 in.—\$1.00; 2-3 ft.—\$1.25.

JUNIPERUS VIRGINIANA—(Platte River Red Cedar). 30 ft. Dark green foliage taking on a bronzy-purple hue in late fall through winter. Our trees have been sheared regularly and are very desirable where a tall slender, graceful plant is needed. Especially good for formal planting. 4-5 ft.—\$1.50; 5-6 ft.—\$2.00; 6-7 ft.—\$2.25; 7-8 ft.—\$2.50; 8-10 ft.—\$3.00; 10-12 ft.—\$3.50.

NATIVE RED CEDAR. 40 ft. Green foliage; sheared plants, make very fine tall, slender specimens. 2-3 ft.—\$1.00; 3-4 ft.—\$1.50; 4-5 ft.—\$2.00.

CYPRESS

ARIZONA CYPRESS. 40 ft. Grayish green, very hardy, nicely sheared. 2-3 ft.—75c; 3-4 ft.—\$1.00; 4-5 ft.—\$1.25; 5-6 ft.—\$1.50.

CEDRUS DEODARA. 30 ft. A pyramidal plant, foliage bluish green with spreading branches. 15-18 in.—75c; 18-24 in.—\$1.00; 2-3 ft.—\$1.50.

ITALIAN CYPRESS. 30 ft. Tall — soft dark green foliage. 15-18 in.—50c; 18-24 in.—75c; 2-3 ft.—\$1.00; 3-4 ft.—\$1.25; 4-5 ft.—\$1.50.

DWARF ITALIAN CYPRESS. Very compact. Grows about half as fast as the other Italian Cypress. 2-3 ft.—\$2.00; 3-4 ft.—\$2.50; 4-5 ft.—\$3.00.

THUJA ORIENTALIS (ARBORVITÆ)

T. O. AUREA NANA—(Berkman's Golden). 6 ft. Dwarf in habit, compact and symmetrical outline. The branches are tipped with golden tint. 12-18 in.—50c; 18-24 in.—75c; 2-3 ft.—\$1.25; 3-4 ft.—\$1.50; 4-5 ft.—\$2.00; 5-6 ft.—\$2.50.

- T. O. BAKERI**—(Baker's Arborvitae). 12 ft. Compact cone shaped. Dark green foliage. One of the best for this section. 18-24 in.—50c; 2-3 ft.—85c; 3-4 ft.—\$1.25; 4-5 ft.—\$1.50.
- GRIFFIN MAURINE.** A fine, beautiful new arborvitae with slender, columnar shape; foliage like Baker. 2-3 ft.—85c; 3-4 ft.—\$1.25; 4-5 ft.—\$1.50.
- ROSEDALE ARBORVITAE.** Very compact, global shape. Light green foliage. 18-24 in.—50c; 2-3 ft.—85c.
- T. O. BONITA.** 5 ft. Perfectly globe shaped. Dark green foliage. 12-18 in.—60c; 18-24 in.—\$1.00; 2-3 ft.—\$1.50.
- T. O. GOLDEN BONITA.** Same as Bonita, except tips of branches are golden in color. 12 in.—40c; 12-15 in.—60c; 15-18 in.—90c; 18-24 in.—\$1.25; 2-3 ft.—\$1.50.
- T. O. EXCELSA.** 2 ft. Much like Baker's, except foliage is coarser and more open. 18-24 in.—50c; 2-3 ft.—85c; 3-4 ft.—\$1.50; 4-5 ft.—\$1.75; 5-6 ft.—\$2.
- T. O. RAMSEYI**—(Ramsey's Hybrid). 15 ft. Dark green foliage; erect narrow growth. 18-24 in.—50c; 2-3 ft.—85c; 3-4 ft.—\$1.00; 4-5 ft.—\$1.25; 5-6 ft.—\$1.50; 6-8 ft.—\$2.00.
- A. & M. COLLEGE NO. 6.** Dark green foliage, erect in growth. 2-3 ft.—85c; 3-4 ft.—\$1.00; 4-5 ft.—\$1.25; 5-6 ft.—\$1.50; 6-8 ft.—\$2.00.
- WINTERGREEN.** Upright, medium tall, dark green color. 2-3 ft.—85c; 3-4 ft.—\$1.00; 4-5 ft.—\$1.50; 5-6 ft.—\$2.00.
- CHINESE ARBORVITAE.** 12 ft. Dark green, very hardy. Excellent for hedges. 2-3 ft.—60c; 3-4 ft.—75c. (Prices on quantities furnished upon request.)
- GOLDSPIRE ARBORVITAE.** 15 ft. Golden foliage, fairly open in growth. 2-3 ft.—\$1.00; 3-4 ft.—\$1.25; 4-5 ft.—\$1.50; 5-6 ft.—\$2.00.

Broadleafed Evergreens

★ IN THIS GROUP are to be found the wide variety of colors that makes possible the many different shades of Green, the Reds, Bronzes, and the various Grays. In addition to holding their beautiful foliage the year 'round, most plants in this Group provide you with Flowers in Spring and Summer, and many of them display gorgeous colored berries all Winter.

- ABELIA GRANDIFLORA.** 6 ft. Bronzy-green foliage, arching stems clothed with fragrant, pinkish-white flowers. Blooms all summer and fall. Fine for hedges. 2-3 ft.—75c; 3-4 ft.—\$1.00; 4-5 ft.—\$1.25.
- ACACIA, Yellow.** 10 ft. Covered with yellow flowers in summer and fall. 2-3 ft.—75c; 3-4 ft.—\$1.25; 4-5 ft.—\$1.50; 5-6 ft.—\$2.00.
- BOX WOOD.** Slow growing; valued in gardens for many uses. 9-12 in.—50c; 12-15 in.—65c; 15-18 in.—85c.
- EUONYMUS VARIEGATED**—Upright growth, gold and green foliage. 15-18 in.—50c; 18-24 in.—75c.

Broadleafed Evergreens

« (CONTINUED) »

EUONYMUS JAPONICA. 10 ft. Compact and upright in growth. Glossy, dark green foliage. Fine specimen plants or may be trained to wall or fence. Adapted to shearing. 2-3 ft.—75c; 3-4 ft.—\$1.00.

EUONYMUS SEIBOLDI. 10 ft. A spreading evergreen shrub of unusual hardiness. Sheds leaves in spring just before new growth starts. Bursting seed pods display red seed in winter. 12-18 in.—50c; 2-3 ft.—75c; 3-4 ft.—\$1.25.

COTONEASTER PANNOSA. 6 ft. Graceful arching branches and leaves white beneath. Orange berries. 2-3 ft.—75c; 3-4 ft.—\$1.25; 4-5 ft.—\$1.75.

COTONEASTER PARNAYI. 5 ft. Thick, nearly black leaves with large red berries. 18-24 in.—75c; 2-3 ft.—\$1.00; 3-4 ft.—\$1.50.

ELAEAGNUS PUNGENS. 8 ft. Fragrant flowers in Autumn followed by red fruit, having silver and brown scale. 15-18 in.—75c; 18-24 in.—\$1.00; 2-3 ft.—\$1.25; 3-4 ft.—\$1.75.

ELAEAGNUS AUGUSTIFOLIA—(Russian Olive). Hardy, deciduous, to 20 feet, with small gray-green leaves, silvery beneath, forming rather dense masses. Tubular flowers, silver without, yellow within, emit a delicious, spicy fragrance of great carrying power. 4-5 ft.—50c; 5-6 ft.—75c; 6-8 ft.—\$1.00.

GARDENIA FORTUNEI—(Everblooming Cape Jasmine). 5 ft. Blooms all summer. 1-1½ ft.—75c; 1½-2 ft.—\$1.00; 2-3 ft.—\$1.50; 3-4 ft.—\$2.00.

GARDENIA GRANDIFLORA—(Common Cape Jasmine). 8 ft. Very fragrant. 1½-2 ft.—75c; 2-3 ft.—\$1.50; 3-4 ft.—\$2.00.

PINEAPPLE GUAVA—Foliage grey green, silvery underneath. Numerous white flowers with red stamens. Fruit dark green, delicious for eating fresh or for making pies or jelly. 18-24 in.—75c; 2-3 ft.—\$1.00.

JASMINE FLORIDUM—(Italian Jasmine). 3 ft. Flexuous branches, dark glossy green foliage. Half inch golden yellow flowers all during growing season. Fine wherever a low spreading effect is desired. 18-24 in.—50c; 2-3 ft.—75c; 3-4 ft.—\$1.00.

JASMINE PRIMULINUM—(Primrose Jasmine). More vigorous and upright than Jasmine Floridum. Has larger blooms, and blooms in early spring. 2-3 ft.—75c; 3-4 ft.—\$1.00; 4-5 ft.—\$1.25.

LAVENDULA VERA—(True Lavender). 2 ft. A low growing, many stemmed plant, gray in color. 8-12 in.—60c; 12-18 in.—90c.

LAUROCERASUS CAROLINIANA—(Cherry Laurel). 20 ft. Glossy green foliage. Will make tree or may be sheared to any desired shape. 1-1½ ft.—60c; 2-3 ft.—\$1.00; 3-4 ft.—\$1.25; 4-5 ft.—\$1.75; 5-6 ft.—\$2.50; 6-8 ft.—\$3.00.

LEUCOPHYLLUM (SENISA) — L. Texanum. 6 ft. Beautiful silver foliage. Beautiful lavender-blue flowers. Grows low and compact. 12-15 in.—75c; 18-24 in.—\$1.00; 2-3 ft.—\$1.50; 3-4 ft.—\$2.00.

LONICERA HECROTTI—“Evergreen Honeysuckle.” Climbs readily, but may be shaped to bush form. 3 year plants 75c.

LIGUSTRUM JAPONICA—“Japanese Ligustrum.” 15 ft. Upright growing broad leafed variety, with dark green, glossy foliage. Has white flowers in spring, followed by dark purple berries in winter. Makes ideal screen planting, or may be used as evergreen shade tree. 2-3 ft.—65c; 3-4 ft.—75c; 4-5 ft.—\$1.00; 5-6 ft.—\$1.25; 6-7 ft.—\$1.50.

Broadleafed Evergreens

« (CONTINUED) »

- LIGUSTRUM LUCIDUM COMPACTA**—"Wax Leaf Ligustrum." 6 ft. 18-24 in.—\$1.00; 2-3 ft.—\$1.25; 3-4 ft.—\$1.50.
- PITTOSPORUM**—3 ft. Dark green elongated heavy leaved slow growing evergreen shrub. 15-18 in.—75c; 18-24 in.—\$1.00.
- YAUPON ILEX VOMITORIA**—Evergreen shrub or small tree with red berries. 15-18 in.—75c; 18-24 in.—\$1.25; 2-3 ft.—\$1.50; 3-4 ft.—\$2.00.
- MAGNOLIA GRANDIFLORA**—"Southern Magnolia." 40 ft. Slow growing, but makes large, stately tree, glossy dark green foliage and large white flowers. 2-3 ft.—\$1.50; 3-4 ft.—\$2.00; 4-5 ft.—\$3.00.
- MYRTUS COMMUNIS**—"Common Myrtle." 8 ft. Leaves small and pointed, shining green in color. Highly aromatic. Small white flowers followed by purple berries. Suited to damp places. 18-24 in.—75c; 2-3 ft.—\$1.00; 3-4 ft.—\$1.25.
- NANDINA DOMESTICA**—4 ft. Upright in growth with many canes or stems springing from same root. Foliage is glossy green in spring and summer, changing to a coppery-red in winter. White flowers in spring are followed by red berries which stay on all winter. 10-12 in.—50c; 1-1½ ft.—\$1.00; 2-3 ft.—\$1.50.
- HOLLY (AMERICAN HOLLY)**—An evergreen tree of great beauty. Assume good form as they grow older. 15-18 in.—75c; 18-24 in.—\$1.00; 2-3 ft.—\$1.25.
- PHOTINIA SERRULATA**—"Low Photinia." 10 ft. May be used as small tree or kept trimmed as shrub. New growth in spring is blood red, changing to green and again to bronze red in winter, bearing clusters of red berries. 18-24 in.—\$1.00; 2-3 ft.—\$1.50; 3-4 ft.—\$2.00.
- HYPERICUM H. KALMIANUM**—A low, hardy shrub; has narrow evergreen leaves and yellow flowers in flat topped clusters. 15-18 in.—50c.
- HYPERICUM MOSERIANUM**—2 ft. An attractive shrub with drooping branches and flowers. 15-18 in.—50c.
- PYRACANTHA ROSE DALE**—12 ft. Upright. Red berries.* 2-3 ft.—\$1.35; 3-4 ft.—\$1.75; 4-5 ft.—\$2.25.
- PYRACANTHA YUNNANENSIS**—6 ft. Broad spreading type. Coral-red berries. 2-3 ft.—\$1.50; 3-4 ft.—\$2.25.
- PYRACANTHA LALANDI**—12 ft. Upright in growth, orange-red berries. 18-24 in.—75c; 2-3 ft.—\$1.25; 3-4 ft.—\$1.75; 4-5 ft.—\$2.25; 5-6 ft.—\$3.00.
- REDLEAF BARBERRY**—6 ft. Leaves beautiful coppery red. Good as shrub or hedge. 15-18 in.—50c.
- SANTOLINA**—1 ft. Low growing, many stemmed plant. Silvery-gray foliage. Fine for rock gardens or borders. 25c to 75c per clump.

EVERGREEN PRIVETS

- AMUR RIVER PRIVET**—15 ft. May be used as specimen plant, screen plantings, or hedges. Field grown 18-24 in.—6c; 2-3 ft.—7c; 3-4 ft.—10c; 4-5 ft.—12c; 2 year bed grown 3c each.
- LODENSE DWARF PRIVET**—A very low dense, compact grower; foliage dark green turning bronze in fall; especially good for low hedge or sheared in formal shapes. 15-18 in.—25c each.
- CALIFORNIA PRIVET**—12 ft. More upright in growth than Amur River, but not as hardy. 18-24 in.—6c; 2-3 ft.—7c; 3-4 ft.—10c; 4-5 ft.—12c.

ORNAMENTAL SHRUBS

♂ DECIDUOUS ♀

The following listed shrubs may successfully be used in softening border lines, edges of walls, filling depressions, as screen plantings, covering slopes, or dividing areas. Careful selection as to varieties and height will insure color scheme and effect that will be a source of much pleasure.

- CAESALPINIA (POINCIANA)**—C Gillies, “Bird of Paradise”—8 ft. Large shrub or small tree with feathery foliage. Clusters of yellow flowers with bright red hair-like stamens several inches long. 2-3 ft.—25c; 3-4 ft.—35c; 4-5 ft.—50c
- CYDONIA JAPONICA, “JAPAN QUINCE”**—6 ft. Flame-like coral flowers in early spring. Medium plant—35c; Heavy plant—75c to \$1.00.
- CYDONIA JAPONICA**—Spreading type, peach colored flowers in early spring, followed by small apples. Medium plant—35c; Heavy plant—75c to \$1.00.
- DEUTZIA, “PRIDE OF ROCHESTER”**—8 ft. Double white flowers tinged with pink. Strong upright growth. Medium plant—25c; Heavy plant 40c.
- FORSYTHIA, “GOLDEN BELL”**—6 ft. Covered in early spring with a profusion of yellow flowers. Fine for arches or trellises. Medium plant—25c; Heavy—40c; Extra heavy—60c.
- PHILADELPHUS (MOCK ORANGE)**—to 8 ft. Hardy, fast growing shrub, covered in spring with white saucer shaped blossoms with golden stamens. 2-3 ft.—25c; 3-4 ft.—35c; 4-5 ft.—50c.
- ALTHEA**—10 ft. We have double white and purple; and single pink and purple. 3-4 ft.—35c; 4-5 ft.—50c; 5-6 ft.—65c.
- CALICARPA AMERICANA, “FRENCH MULBERRY”**—6 ft. The flowers are small, borne in short clusters in summer and the plants are grown chiefly for their bright lilac or violet colored berry-like fruits, very conspicuous in late autumn. 2-3 ft.—50c; 3-4 ft.—75c.
- CREPE MYRTLE**—10 to 15 ft. Lavender or Watermelon red. 1½-2 ft.—15c; 2-3 ft.—20c; 3-4 ft.—30c; 4-5 ft.—40c. Balled and burlapped 15c extra.
- DWARF POMEGRANATE**—3 ft. A miniature pomegranate with fresh green foliage, scarlet flowers and small, crimson fruit. Almost evergreen. Medium plants—65c.
- FLOWERING ALMOND**—6 ft. A low, spreading shrub covered in early spring with double, rose-like flowers all along the stems. 1½-2 ft.—40c.
- FLOWERING PEACH**—15 ft. Pink, white and red. 2-3 ft.—25c; 3-4 ft.—35c; 4-5 ft.—50c.
- LILAC, (PERSIAN LILAC)**—8 ft. 2-3 ft.—25c; 3-4 ft.—35c.
- WEIGELA ROSEA**—15-18 in. 20c; 18-24 in.—25c; 3-4 ft.—40c. Also **WEIGELA VARIEGATED LEAF** and **WEIGELA YELLOW** at same prices.
- ROSE ACACIA**—A shrub with clusters of rose pink flowers, the bloom resembling sweet peas. Flowers covering the plant in early spring. 2-3 ft.—35c.
- BUDDLEIA (BUTTERFLY BUSH) Ile de France**—A grand new Butterfly Bush covered with large spikes of claret purple flowers from June until frost. Medium plants—35c each.
- SNOW DROP**—Can be trained on trellis or grown on bush. Covered in spring and summer with white blooms. It will perfume your whole yard. 18-24 in.—30c; 2-3 ft.—45c.

- TAMARIX, "SALT CEDAR"**—Has feathery green foliage and is covered in spring and summer with pink flowers. 2-3 ft.—25c; 3-4 ft.—35c; 4-5 ft.—45c.
- VITEX**—Lavender colored flowers in spires and also has distinct odor of lavender. May be made into either tree or shrub. 3-4 ft.—25c; 4-5 ft.—40c.
- LANTANA**—Yellow or pink. Strong plants—25c.
- CORAL BERRY**—Native. 2-3 ft.—25c.

SPIREA (BRIDAL WREATH)

- SPIREA VAN HOUTTI**—When blooming looks like a snowbank. 2-3 ft.—25c; 3-4 ft.—40c.
- SPIREA THUNBERGI**—3 ft. Dwarf variety; flowers also smaller. 2-3 ft.—25c; 3-4 ft.—40c.
- SPIREA FROEBELLI**—3 ft. Dwarf Pink Spirea. 2-3 ft.—35c.
- SPIREA BILLARDI**—4 ft. Blooms in long lavender spires. 2-3 ft.—25c; 3-4 ft.—40c.

ORNAMENTAL TREES

★ SUCCESS	6 - 7 ft.	1.50	12.00	100.00
★ MAHAN	8 - 10 ft.	2.00	16.00	
★ JOHN GARNER				

ENGLISH WALNUT (WILSON WONDER)—A fine nut and a beautiful tree. The nuts are larger than the California or South American nut and shell a little thicker, but the quality is as good or better. Try a few of these for shade, too. **Prices:** 2-3 ft.—85c; 3-4 ft.—\$1.00; 4-5 ft.—\$1.35; 5-6 ft.—\$1.60; 6-7 ft.—\$2.00; 7-8 ft.—\$2.50; 8-10 ft.—\$3.00.

Thomas Black Walnuts

The Heaviest Bearer of them all. This is the Walnut that has been publicized so much in all the farm papers the last few years. We find it to be one of the fastest growing and most satisfactory shade trees to be had, and the nuts are much larger than the native Black Walnuts, with thinner shells. The meats come out easily in halves and retain the delicious flavor of the native nut. Will grow well in practically any soil. It is also valued for the timber.

PRICES: 2-3 ft.—85c; 3-4 ft.—\$1.00; 4-5 ft.—\$1.35; 5-6 ft.—\$1.60; 6-7 ft.—\$2.00; 7-8 ft.—\$2.50; 8-10 ft.—\$3.00. Quantity prices on request.

GRASSES

PAMPAS GRASS—6-8 ft. The long silky plumes, borne in late summer, remain beautiful for many weeks. They may be cut and dried for winter house decoration as soon as they are fully developed. **Clumps—50c to \$2.00.**

SOTOL (SAW TOOTH)—A desert plant with spike growing out of grass to ten feet, making large plume. **Clumps—\$1.00 to \$2.00.**

Ornamental Vines

HONEYSUCKLE (HALL'S) — The old favorite; exceedingly fragrant. **Each 35c.**

Fruit Trees

ALL McCLUNG NURSERY FRUIT TREES are budded from bearing trees, and you can be sure of getting the variety that you order. All buds for the Stubenrauch line of Peaches are obtained from the Luther Cox orchard at Mexia, Texas, considered one of the best in the State, and from our own fine orchard near Navarro, Texas. It is our intention at all times to offer the best varieties in fruits and to offer stock that is budded from trees that are actually in production.

PEACHES

Size	Each	Per Dozen	Per 100
18-24 in.	\$.10	\$1.00	\$ 8.00
2-3 ft.	.15	1.50	12.50
3-4 ft.	.20	2.00	15.00
4-5 ft.	.25	2.50	18.50
5-6 ft.	.35	3.50	25.00
6-7 ft.	.40	4.00	35.00
7-8 ft.	.50	5.00	

MAMIE ROSS—Very large, blush, white flesh. Ripens June 12th.

CAUTHEN—One of our own discoveries. Found in E. J. Cauthen's yard in Italy, Texas. Semi-cling, large, heavy bearer, ripens June 15th. Blooms almost as well as a flowering peach, very ornamental.

YELLOW GIANT—Large yellow peach; fine flavor. June 25th.

FAIR BEAUTY—Ripens around June 25th. A good market peach, coming off ahead of Elbertas.

EARLY ELBERTA—Ripens also around June 25th.

ELBERTA—The best known of all varieties. Large yellow freestone—ripens July 10th.

TENA—One of the best of the Stubenrauch strain. Frost resistant, heavy bearing; a better marketing peach than Elberta. Freestone, yellow—red around seed. Ripens July 10th.

AUGBERTA—Freestone. Ripens August 5th. Yellow, resembling Elberta, but later. Very prolific and good quality.

FRANK—We cannot say too much for the Frank peach. We find it the heaviest bearing of all peaches; frost resistant, yellow meated, cling. Ripens August 10th to 15th.

FRANKIE—Same shape, color and taste as the Frank, but it is a freestone. Ripens with the Frank.

RED INDIAN—Old time variety, red meat cling seed; one of the best for pickling. Ripens August 1st.

LIBERTY—Considered by Mr. Stubenrauch as one of his best. A yellow cling-stone very much like the Frank. Ripens about August 20th.

PLUMS

BURBANK—Large cherry red, flesh deep yellow. Good flavor. June.

COMPASS—Cherry-plum, fruit small, dark red. Bears extremely young. June.

BRUCE—Large market plum. Bright red, firm, quality good. June 10th.

OPATA PLUM CHERRY—Fruit purplish red, very pleasant in flavor. Last of June or first of July.

METHLY—Ripens May 25th. Greenish red skin, sweet flavor. A good shipper.

SIX WEEKS—June 1st. Large red.

PLUM PRICES: 2-3 ft.—25c; 3-4 ft.—30c; 4-5 ft.—40c.

APRICOTS

	Size	Each	Dozen
EARLY GOLDEN — Deep yellow, medium size. Good bearer.	2-3 ft.	\$.35	\$3.50
	3-4 ft.	.45	4.25
	4-5 ft.	.55	5.50
MOORPARK —Yellow with red cheek.			

APPLES

GRIMES GOLDEN—Round, medium size, skin yellow with small dots, yellow flesh. Ripens in September.

leaves are very ornamental. Useful in landscaping. 3-4 ft.—60c.

RED DELICIOUS—Golden in color, bears very young. Ripens in Oct.

YELLOW DELICIOUS — Like other Delicious, except yellow in color.

	Size	Each	Dozen
RED JUNE —An old standard summer apple. Good bearer.	2-3 ft.	\$.30	\$3.00
	3-4 ft.	.40	4.00
	4-5 ft.	.50	5.00
CRAB APPLE HOPI — Blooms and			

PEARS

LE CONTE — Large fruit, luxuriant foliage, hardy tree. Good for the South.

DOUGLAS — Begins bearing early. Very hardy.

GARBER — Much like Kieffer in size and appearance. Ripens earlier.

EARLY WILDER — Early bearing, good quality.

	Size	Each	Dozen
KIEFFER — The best pear for commercial planting. Large size, yellow flesh, juicy and aromatic. Bears very young and is blight and other disease resistant.	2-3 ft.	\$.30	\$3.00
	3-4 ft.	.40	4.00
	5-6 ft.	.60	6.00
	6-8 ft.	.75	7.50

FIGS

BROWN TURKEY — Very hardy.
Purplish brown color; good size.

Fine for eating or preserving.

Prices on Figs:

MAGNOLIA — Fruit large, yellowish
white with purple netting. Prolific.

2-3 ft. Light—20c; Heavy, well-
branched—25c; 3-4 ft. Light—30c.

GRAPES

CONCORD—The standard black grape. Thrives wherever grapes grow. Fine for
table use or juice and jelly making.

NIAGARA — The standard white grape. Greenish-white changing to pale yellow
when ripe.

CARMEN—Medium size, black in color, very thick bunches.

ALL GRAPES: Strong plants—15c each; \$1.50 per dozen.

BERRIES

AUSTIN DEWBERRY—Early, immensely productive. Large size and good qual-
ity. \$1.50 per Hundred.

YOUNGBERRIES — The new, big red berry with the distinctive Raspberry flav-
or. Jams and jellies made from Youngberries will please you beyond your
fondest dreams. Fruit larger than Austin Dewberry and vines are equally pro-
ductive. \$3.00 per Hundred.

BOYSENBERRIES—The newest thing in berries. Appearance and taste similar to
Youngberries, but larger in size. The seed are small and soft. 6c each; 50c
per Dozen; \$4.50 per Hundred.

DALLAS BLACKBERRY — \$3.00 per Hundred.

JAPANESE PERSIMMON

EUREKA — We don't like the name
Japanese, but we do like the persim-
mon. The fruit is as large as a base
ball, bright orange color, ripening af-

ter frost. Very ornamental, seedless,
heavy bearer and even small trees
will load down. 3-4 ft.—40c; 4-5 ft.
—60c; 5-6 ft.—75c.

FRESH FRUITS IN SEASON

★ WE ESPECIALLY wish to call your attention to the fact
that we have, near Navarro, Texas, the largest Fruit Farm in this
section of the State. We grow every Fruit adapted to this section,
and offer it for sale at prevailing market prices.

Time of Planting

PLANTING should be done as early as possible. Plants usually go dormant in this part of the country around the first of November. It is advisable to transplant as soon after then as possible. Consult us for the best time of Fall or Spring planting of the shrubs, flowers, trees and bulbs you are interested in.
